UI/UX Designer & Engineer

Nike Inc.

# T A B L E O F C O N T E N T S .

## INTRODUCTION 03

Welcome to my PDF portfolio. This on the go format was created to easily showcase to those interested in getting to know about my projects in design and engineering.

---

## ABOUT ME 04

Get to know a little more about me! Gather additional insight about my skillsets.

---

## CAREER JOURNEY 05

Learn more about my career journey at Nike thus far. I have worked multiple stretch assignments while in every role.

---

## PROJECTS 06-17

Projects I have worked on in the past few years at Nike.

---

## RESUME 18

Summary of all my work and personal experience on a single page.

---

## CONTACT ME 19

Want to get in touch? Let's chat either through email or phone!

# welcome.

## Hello!

Thank you for taking the time to check out my portfolio. This portfolio was created to showcase some of the work I have been up to in the past couple of years. I have a very diverse skillset in design and engineering and I strive to keep growing as much as I can in both areas!

As someone who is just starting out their career, I know that there is so much for me to learn and I am more than eager to explore all the opportunities that come my way. I am incredibly fortunate to begin my career with Nike and follow the path they take me on. With time I would love to explore new paths when possible and truly make a name for myself in the ever growing tech industry.

**Happy browsing!**

**-Mayra :)**

# about me.

## Mayra Sanchez

Mayra is a designer and engineer focused on building brands and creating digital experiences — currently working at Nike.

### Education

#### California State University, Long Beach

Bachelor's of Science, Computer Science  
2017 - 2021, GPA: 3.47

### Certifications

#### Google (Coursera)

Foundations in User Experience (UX) Design  
May 2024

### Experience

#### Nike

Lead Software Engineer & UI/UX Designer  
September 2021 - Present

#### Nike Intern

Software Engineer Intern  
June 2020 - August 2020

#### Level 2 Designs

Web Development & SEO Associate  
July 2018 - December 2019

### Design Skills

UI/UX  
Figma  
Branding + Identity  
Creative Direction  
User Research

Concept Development  
Design Thinking  
Creative Strategy  
Design for Accessibility

### Technical Skills

HTML/CSS/JS

Python  
Tableau

Mobile Development  
Squarespace, Curator,  
Webflow, Wix, WordPress

# career journey.

## Nike

---

### Lead Software Engineer & UI/UX Designer

January 2023 - Present / Remote

- Lead UI/UX designer and engineer for a dashboarding platform resulting in a more intuitive user experience for stakeholders.
- Fostered cross-functional collaboration as a lead engineer and product owner to improve data accuracy and accessibility.
- Spearheaded frontend application development initiatives, leveraging expertise in React, HTML5, CSS, and JavaScript.

### Associate Software Engineer & Cultural Designer

September 2021 - December 2022 / Beaverton, Oregon

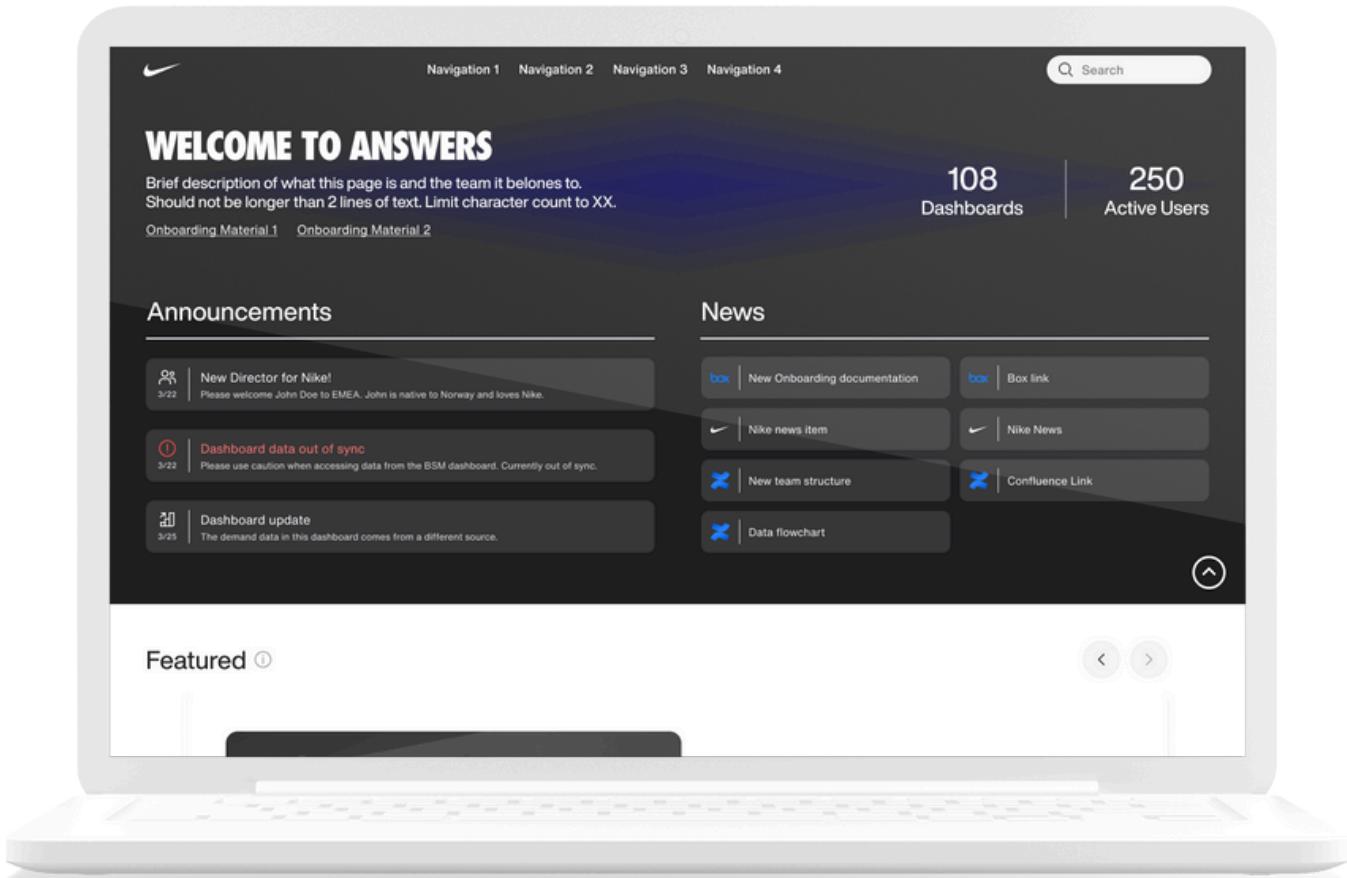

- Engage developers in collaborative settings streamlining new methods of obtaining consumer insights
- Design creative infographics with original art for events engineered to unify Nike's Hispanic Community
- Assemble data for stakeholders with well organized and visually appealing tables and keynotes
- Collaborated with skilled designers to build new User Interfaces for internal Nike tools utilizing Figma

### Software Engineer Intern

June 2020 - August 2020

- Improved user experience by creating dynamic content freshness with JavaScript React and Redux programming
- Increased website traffic by 15% to Nike Launch and introduced new exposure to wider Nike audiences
- Enhanced website performance on search consoles for Nike Launch with enhanced UI/UX elements on the SNKRS website

# Nike Answers Portal.

## Nike Answers Portal - Website

### Lead UI/UX Designer

February 2024-Present

Most recently promoted to work as the Lead UI/UX Designer for Nike's newest platform. Currently the platform is still in its onboarding stage but once in production, it is estimated that over 1000 monthly users will be utilizing the Answers portal to get their user metrics. Mayra was personally sought as to be the lead UI/UX Designer where she has been entrusted to call the shots on all the designs, interview with the stakeholders, and work closely with the developers to ensure the implementation matches the vision.

Nike

# Nike Catalog.

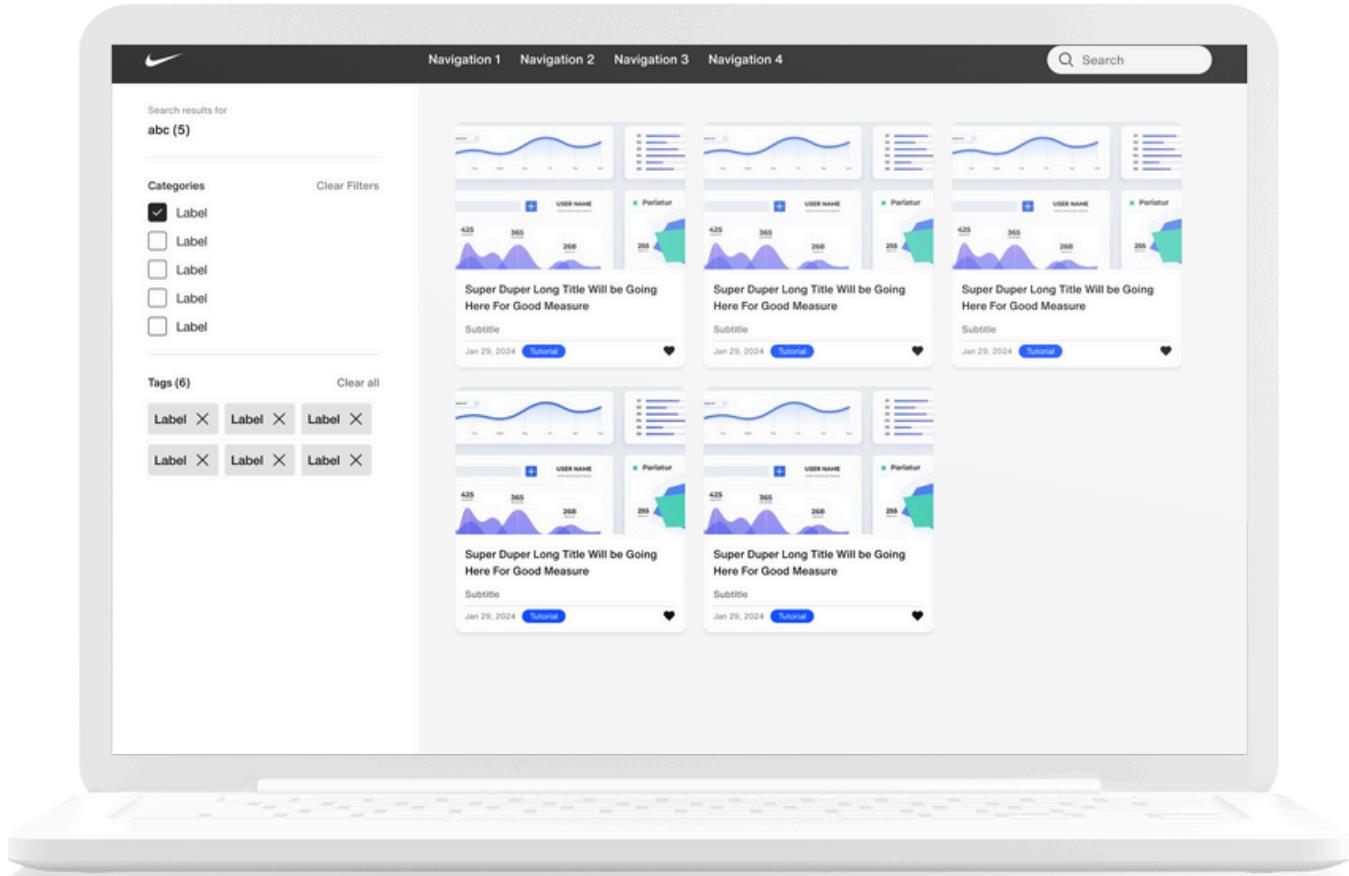

## Nike Search Results Catalog - Website

### Lead UI/UX Designer

February 2024 - May 2024

Nike's Catalog is a new initiative proposed by the Customer Success Management team. In part of Mayra's stretch assignment, she designed a new Catalog page from scratch that truly embodies the look and feel of Nike. This catalog page will serve as a portal of portals to all of Nike's Tableau dashboards that contain consumer metric data. Nike's new catalog was designed on Figma after several stakeholder interviews.

# Nike Product Wall.

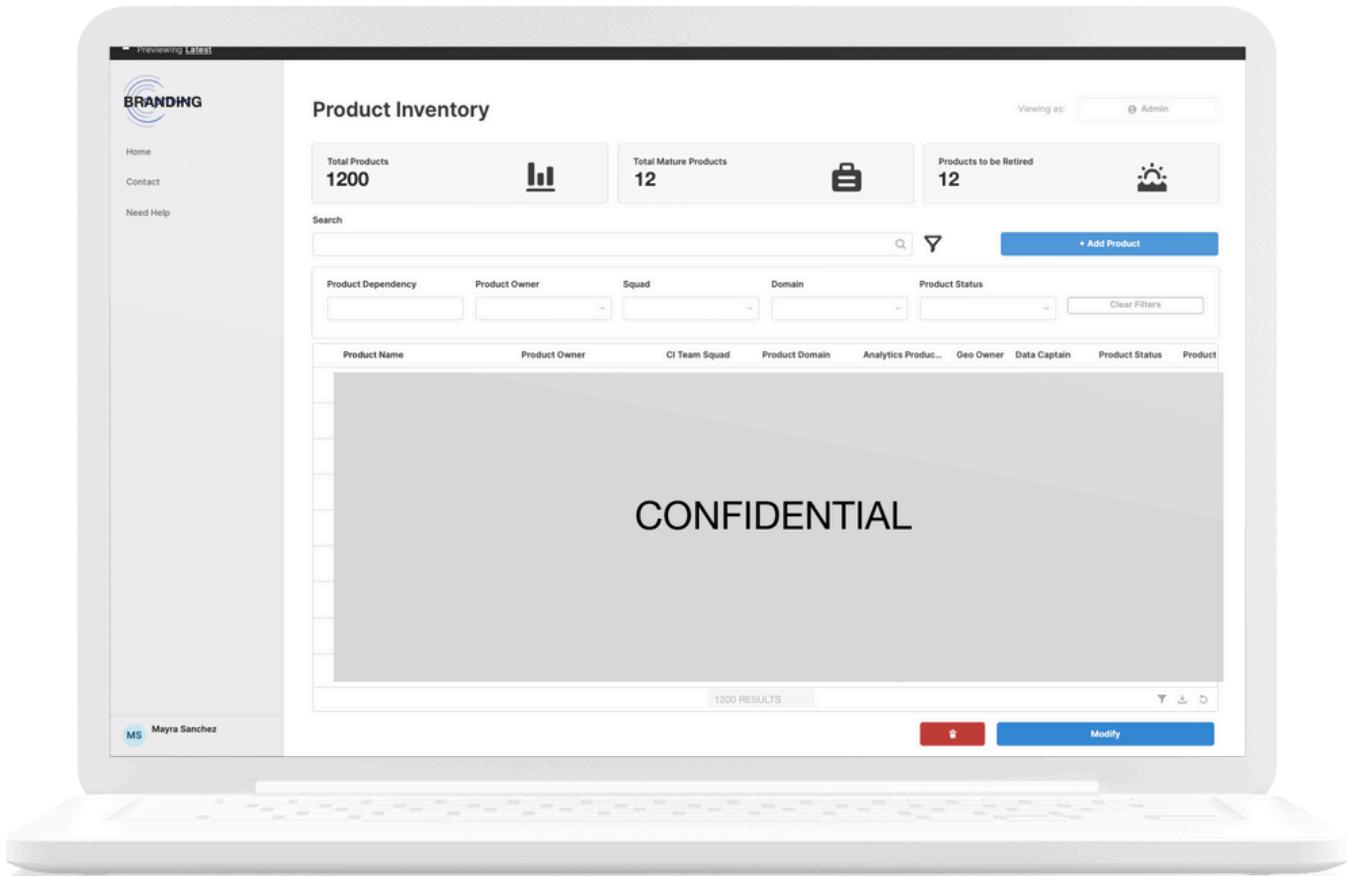

## Nike Product Wall - Search Results Page

### Lead UI/UX Designer

April 2024 - Present

With over 1000+ different dashboards, it is reasonable to assume that users would want to filter out their search to best meet their needs. Mayra redesigned the Portal landing page for Answers to be more appealing and easy for the users to utilize. This redesign effort came about after the Customer Success Team realized that the search functionality was being avoided due to its poor design. Now with Mayra's designs implemented, users are able to quickly find their data and deliver to their team.

# Product Inventory.

## Product Inventory - Interactive Data Handling Tool

### Lead UI/UX Designer & Front-end Developer

May 2022 - December 2023

Designed a new and original UI for Product Inventory & evaluating tools like retool & amplify. Product Inventory is a living internal record of data products that Consumer Insights produces repetitively. This should record all data products in development, inclusive of all stages of life cycle. This new product has HIGH visibility and is expected to be a main priority in the next fiscal year. Mayra is also expected to be a lead engineer on this project.

Mayra was instructed to learn more about **Retool**. With very little guidance, Mayra was able to replicate most of the Product Inventory experience she had originally designed the previous month and create an interactive experience. Mayra helped in assisting the Retool instance on our Waffleiron account, set up SSL certificates, assisted in connecting the database, uploaded the current product inventory .csv file and was able to create an interactable table. The CRUD expectations that were set as an exploratory option, were met exceptionally despite not needing to be completed at the time. Mayra went above and beyond with the Retool discovery and is trusted by her fellow engineers and leadership to lead the Retool x Product Inventory project.

## Data Product Inventory & Cataloging Program Mission

Streamline our current data product portfolio in order to optimize Consumer Insights value delivery to the business and increase our focus on scaling priority consumer opportunities.

### OUTCOMES

**01**

Establish foundation for data and product governance

**02**

Increase strategic data product development

**03**

Improve operational efficiency & resource management

**04**

Centralized, easy data product accessibility

**05**

Maximize Consumer Insights enterprise value

branding

### Product Inventory MVP: Summary

Last Updated: 02/10/2023

Over past 2 month's Product Management has collaborated with XX teams across global and geo Team Name to create an MVP Product Inventory. This is not an exhaustive list, but a sample from a growing dataset to show the value of having a Product Inventory through multiple use cases.

#### Overview

100\*

Products

10

Product Types

25

Teams Coordinated

\*Additional information to be included here.

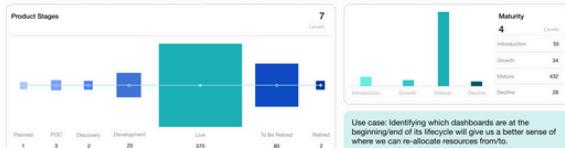

#### Product Summary

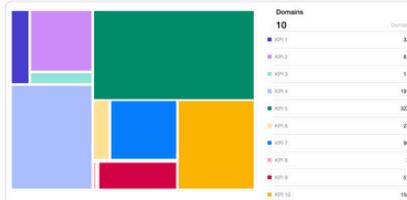

branding

### Product Inventory MVP: Product Lifecycle & Portfolio Balance

Product Inventory can be used for making data driven decisions on product lifecycle or portfolio balance.

Use case: Identifying which dashboards are at the beginning/end of its lifecycle will give us a better sense of where we can re-allocate resources from.

There will be one input used when shifting to a domain and capability-driven planning offense for Team Name.

### Product Inventory MVP: Dependencies

Product Inventory Capability is highly effective at identifying first order dependencies for our products in the event of legacy migration situations.

Use case:

DOL is being migrated, so we need to identify which products will be impacted and take appropriate action to prevent any disruptions.

Initial question:

What products have dependencies on DOL?

Identify affected products:

Dependencies	Count
DOL	75
EMOL	35
NPO	160
NDCC	27
Launch	44

List of all products with dependencies on DOL:

Confidential

# Knowledge Portal.

## Knowledge Portal - Website

### Lead UI/UX Designer & Front-end Developer

November 2021 - Present

Homepage redesign and development. Mayra successfully pitched a new home page for Knowledge Portal. This page will be much more effective for new users and onboarding them more seamlessly. With Mayra's design skills, we did not need to ask an external team to leverage an UI/UX designer since Mayra is capable of acting as one. Once the design was improved in Figma, Mayra set to develop the homepage and we hope to have it finished by the end of the quarter.

# Portal Title

# Auto-Insights.

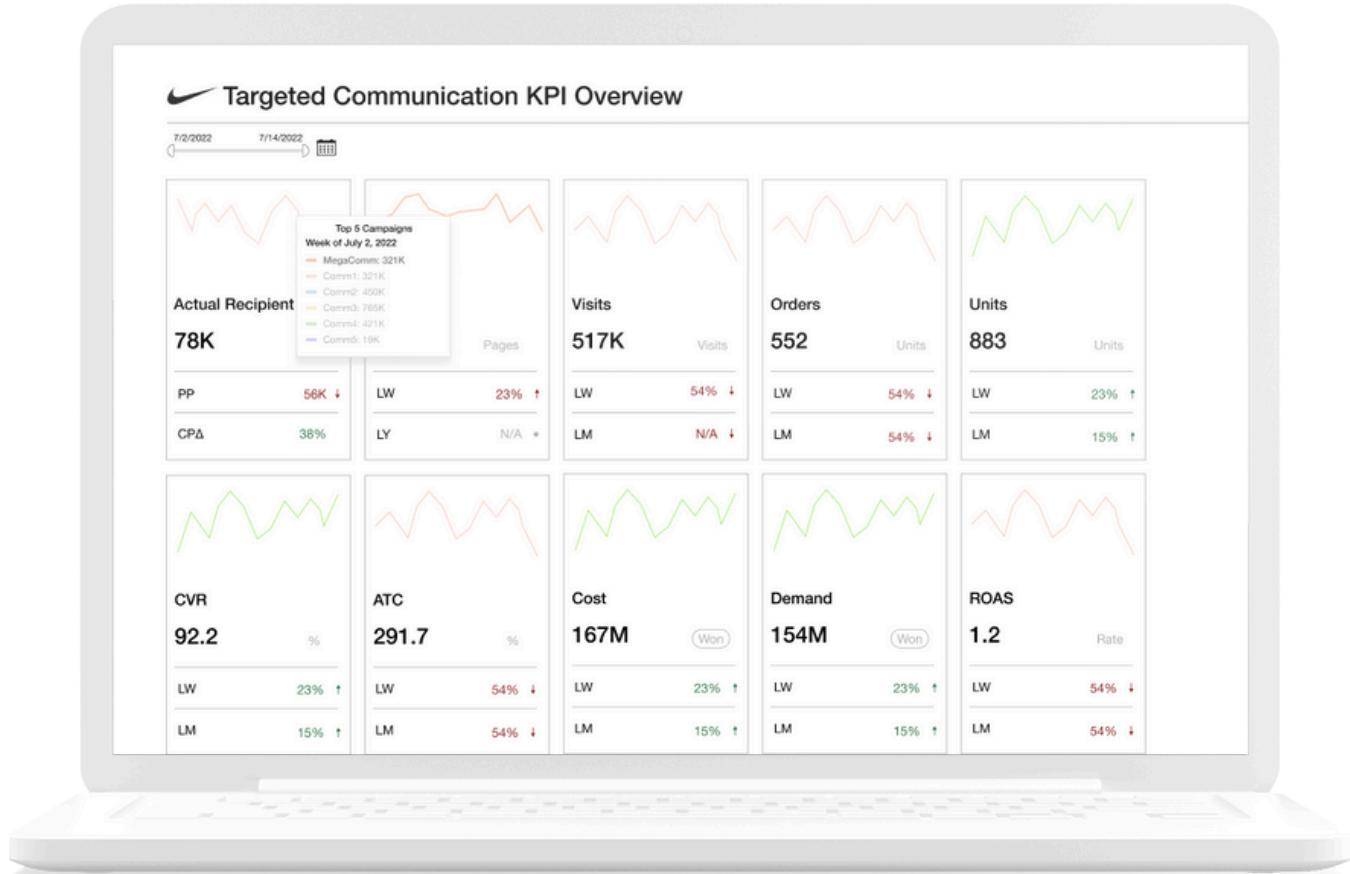

## Auto-Insights - Semantic Searchability

### Lead UI/UX Designer

September 2023 - January 2024

Initially started off as designing new UI design on Figma for Semantic Searchability but they did not have an engineer who knew how to style. Vishal and the team got the functionality down but brought Mayra in due to her expertise in frontend styling. Mayra successfully aided the team in bringing their dev environment to match the requirements set in the Figma document. Mayra was brought into their repo, and familiarized themselves with React JS to be able to better aid the team in getting their project to production by their deadline.

# Korea Dashboards.

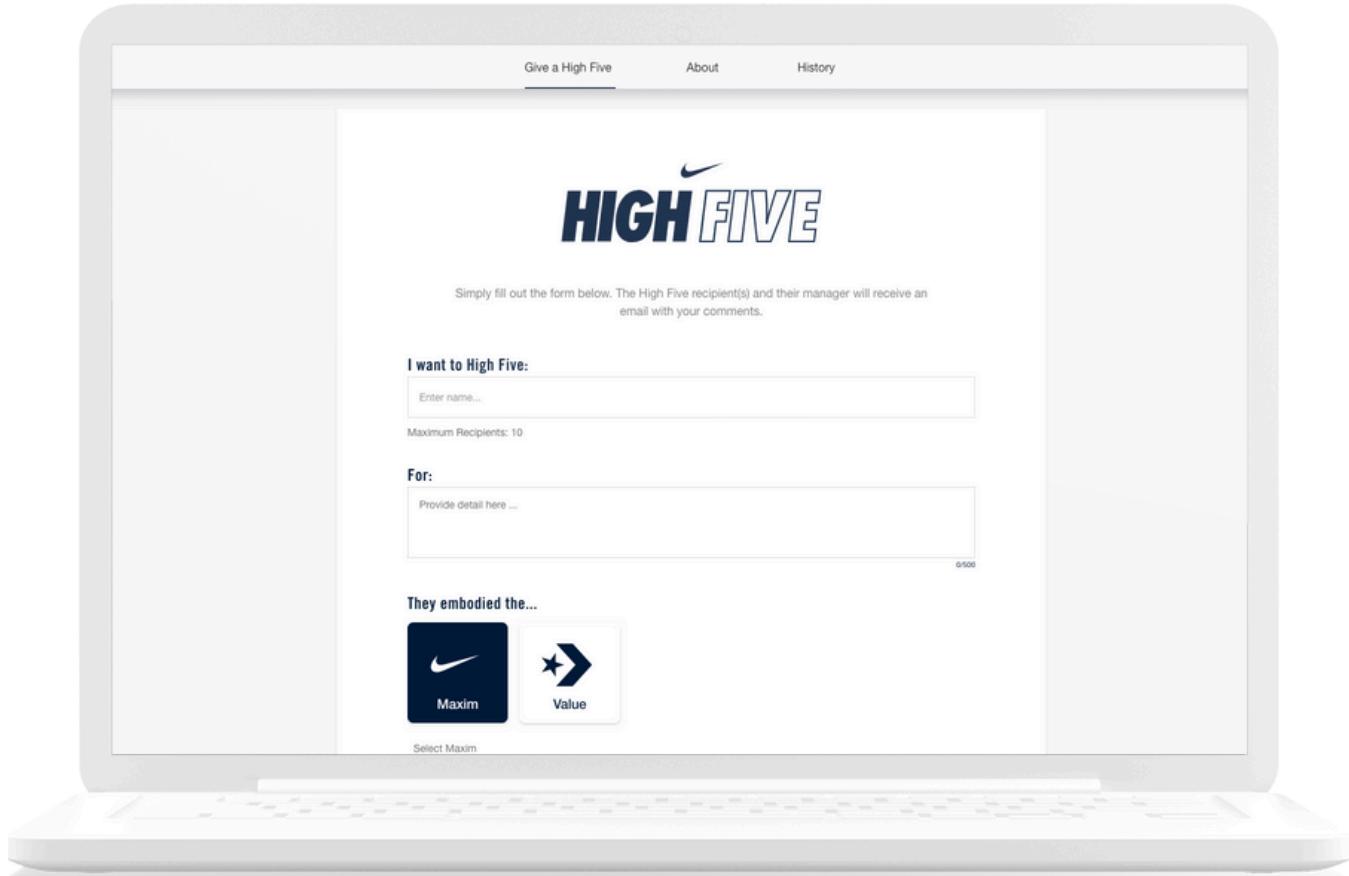

## Auto-Insights - Semantic Searchability

### UI/UX Designer

August 2022 - October 2022

Conducting design work on noticeable Knowledge Portal Data Refresh. Utilizing UI/UX design skills and knowledge Mayra has been gaining from learning Tableau from a Data Viz Engineer. Successfully presented designs in team demo and the team loved the designs. Currently, the designs are utilized everyday in the Korea team.

# HighFive.

## Nike HighFive - Employee Achievement Recognition System

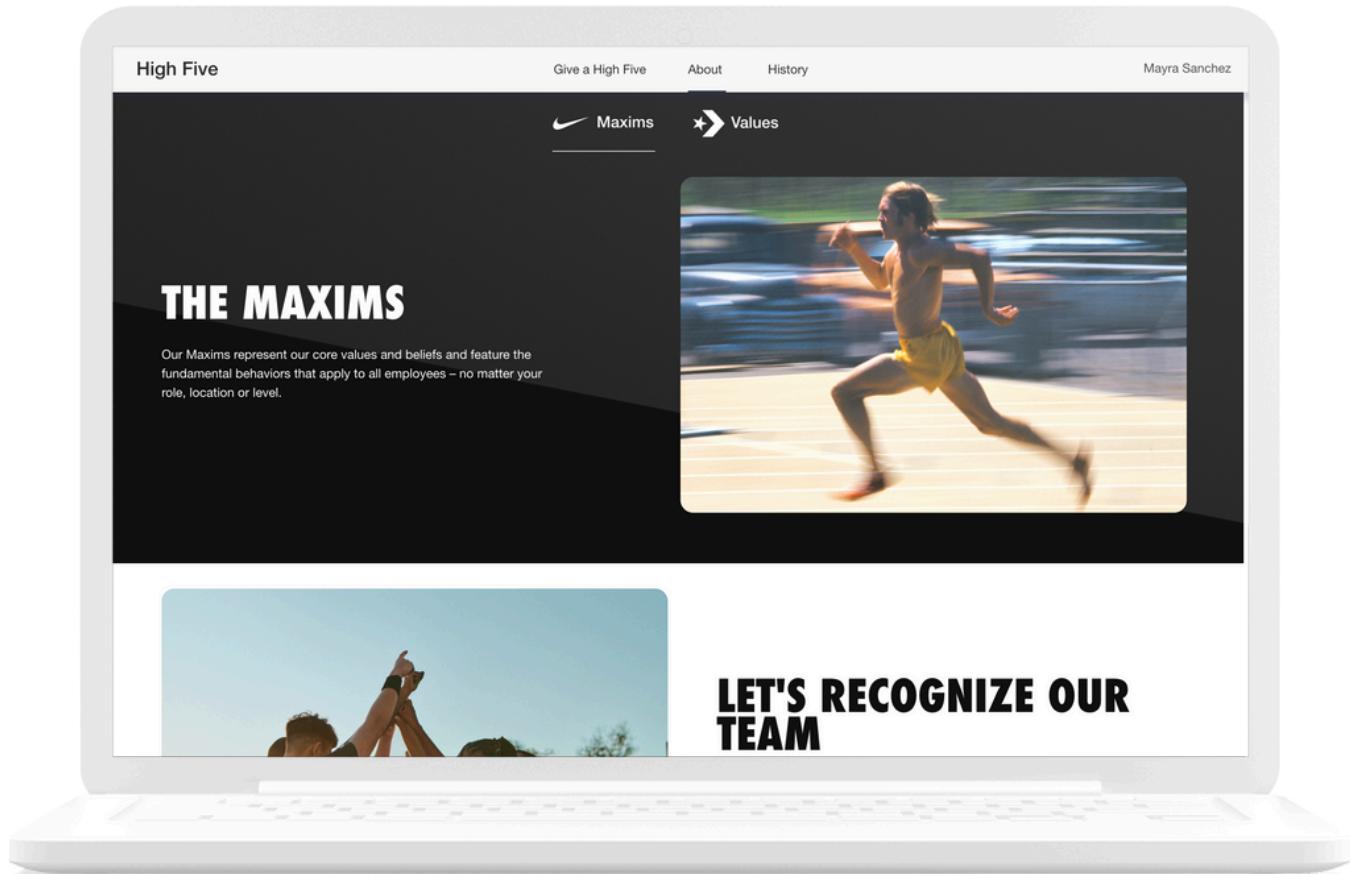

---

### UI/UX Designer

October 2022 - January 2023

Nike's internal employee recognition system got a major refresh when Mayra was brought on to the stretch assignment. In this stretch, Mayra took apart the original HighFive, assessed user issues along with their wants and successfully delivered a fresh new Nike experience that is utilized by all internal Nike employees.

# About Nike.

## Nike HighFive - Employee Achievement Recognition System

---

### UI/UX Designer

October 2022 - January 2023

In accounting for confusion and/or user questions, Mayra designed an entirely new About section for the Nike Maxims and Converse values. Mayra designed this page from scratch after assessing the necessary material to include on the pages. Mayra went through several design reviews and took the feedback from senior designers and successfully delivered the new About pages as a debut to her first solo UI/UX design project.

[!\[\]\(0d12326490dcf2fb15b925ccac8d3f27\_img.jpg\) Maxims](#)[!\[\]\(6204b2b9447b1eb7bc3c04a584718a35\_img.jpg\) Values](#)

## THE MAXIMS

Our Maxims represent our core values and beliefs and feature the fundamental behaviors that apply to all employees – no matter your role, location or level.

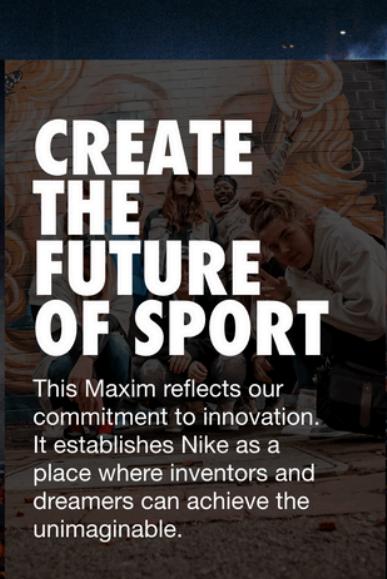

### LET'S RECOGNIZE OUR TEAM

Recognize your teammates for their hard work, innovative spirit and embodiment of the Nike Maxims! The Nike High Five program empowers you to acknowledge good work when you see it!

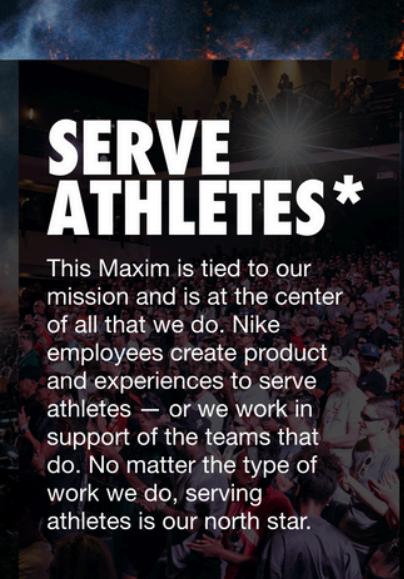

### DO THE RIGHT THING

This Maxim reflects our belief in accountability to each other and recognizes the importance of how we connect to and serve our communities.

### CREATE THE FUTURE OF SPORT

This Maxim reflects our commitment to innovation. It establishes Nike as a place where inventors and dreamers can achieve the unimaginable.

### SERVE ATHLETES\*

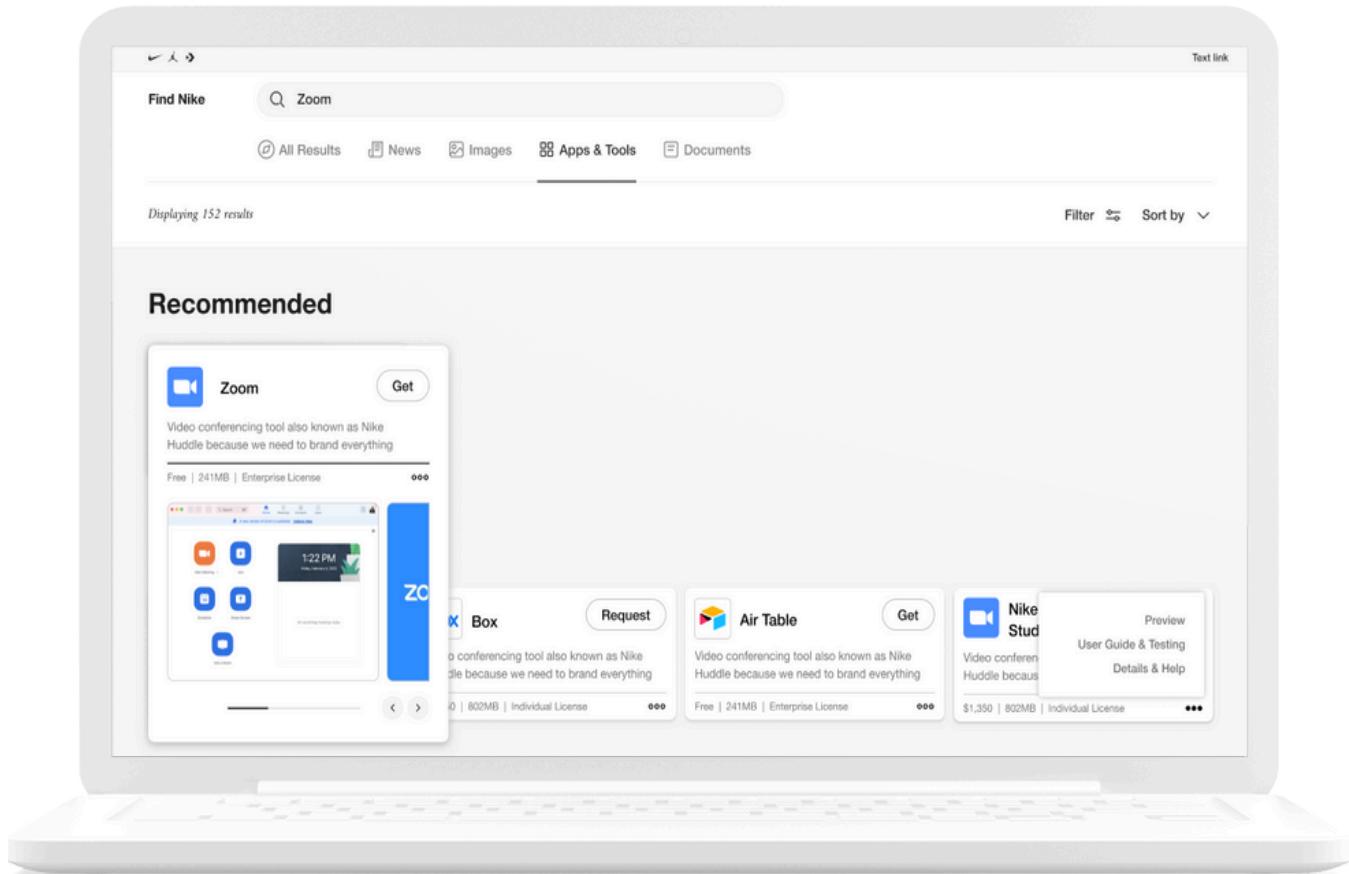

This Maxim is tied to our mission and is at the center of all that we do. Nike employees create products and experiences to serve athletes — or we work in support of the teams that do. No matter the type of work we do, serving athletes is our north star.

### BE ON OFFENSE ALWAYS

Nike is a growth company — and we demonstrate this by our focus on the consumer. This Maxim represents all aspects of our business and our determination to win.

# Search.

## Nike Search - Onboarding Material

### Jr UI/UX Designer

September 2022 - January 2023

Onboarding a new team member at Nike typically takes weeks due to the information being spread out over countless sites and applications. Mayra was tasked with creating a centralized app store for new Nike employees to utilize when they are first brought into the company. With this app store, employees are able to download the apps they need and request permissions to access their necessary material all in one place. With this directory implemented, the new employee onboarding time was significantly reduced to about 75%.

# MAYRA SANCHEZ

## EXPERIENCE

### Nike Inc, Remote – Software Engineer 1 & UI/UX Designer

SEPTEMBER 2021 - PRESENT

- Spearheaded the development of large-scale frontend applications at Nike, utilizing expertise in HTML, JavaScript, and CSS
- Lead UI/UX designer and engineer for dashboarding platform, enhancing efficiency and user experience for stakeholders
- Collaborated cross-functionally as a lead engineer and product owner to streamline systems for consumer data acquisition
- Demonstrated proficiency in modern frontend technologies by integrating React and Redux into Nike's internal tools,
- Engaged with a diverse team across QA, Build, UI, Documentation, and Management to successfully drive organizational growth.
- Onboarded over 500 new users to Nike's new internal product inventory application built with React JS

### Nike Inc, Remote – Global Technology Intern

JUNE 2020 - AUGUST 2020

- Improved user experience by creating dynamic content freshness with JavaScript React and Redux programming
- Increased website traffic by 15% to Nike Launch and introduced new exposure to wider Nike audiences
- Enhanced website performance on search consoles for Nike Launch with enhanced UI/UX elements on the SNKRS website

### Level 2 Designs, Orange, CA – Web Development & SEO Associate

JULY 2018 - DECEMBER 2019

- Enhanced site performance by 25% with new enhancements from recommendations made after analyzing customer engagements
- Implemented responsive UI elements for desktop and mobile site implementations with HTML, CSS, and JavaScript
- Leveraged Adobe XD to design new features for clients and engineered the designs with minimum oversight

### City of Anaheim Public Libraries, Anaheim, CA – Library Clerk

MARCH 2017 - AUGUST 2021

- Provided assistance to patrons by checking out their materials and educating them about important library policies
- Engaged with large groups of children by reading to them in Story-Times to promote literacy and independent reading
- Created and designed original artwork utilized by entire library system to promote branch events and bring in new patrons

## EDUCATION

### California State University, Long Beach – Bachelors of Science, Computer Science

AUGUST 2017 - MAY 2021, GPA: 3.47

- **Relevant Coursework:** Software Development & Frameworks, Operating Systems, Data Structures & Algorithms (Java & C++)

## SKILLS

- **Technical:** React & Node JS, C#, Python, Amazon AWS, Java, C++, HTML/CSS/JS, SQL, Snowflake, Curator, WordPress, Unity
- **Graphic and UI/UX Design:** Adobe Suite, Figma, Sketch, Zeplin, Prototyping, Wireframing, Procreate, Tableau, PowerBI
- **Professional:** Creative Problem Solving, Fluent in Spanish, Willingness to Learn, Debugging, Troubleshooting,
- **Interpersonal:** Strong verbal communication, Collaborative and Strong leadership, Conflict resolution, Fast learner

## PROJECTS

### csulbwic.com, Long Beach, CA – Webmaster

JUNE 2019 - MAY 2021

- Generated original website by applying Adobe XD, Photoshop, and Illustrator
- Composed and streamlined website with React and BootStrap

## CONFERENCES, ACCOMPLISHMENTS & Certifications

- Grace Hopper Conference 2019 & Virtual 2020
- Google Hispanic Student Leadership Summit 2020
- First place in Latino and Friends Graphic Design Contest held by Nike
- Foundations in User Experience (UX) Design from Google

# thank you.

I'm looking forward to keeping in touch!
